

## TURFCO F15B METE-R-MATIC TOPDRESSER

### +VAT

TURFCO F15B METE-R-MATIC TOPDRESSER Self-propelled pedestrian top dresser A light, manoeuvrable topdresser built for professional results. The F15B has been the benchmark for pedestrian topdressing for decades — precise, reliable, and straightforward to operate on everything from golf greens and sports pitches to paddocks, estate lawns, and landscaped grounds. ?? Honda 4-stroke petrol engine with recoil start — dependable power season after season ? Patented Mete-R-Matic system maintains a consistent application rate regardless of walking speed — no over- or under-application ? Patented Chevron conveyor belt and powered brush eliminate material bridging, even with damp or heavy mixes ? 11.5 ft<sup>3</sup> (0.33 m<sup>3</sup>) hopper capacity — suitable for sand, compost, peat, topsoil, crumb rubber and more ? 800mm (31.5") spread width with adjustable metering gate up to 76mm for fine rate control ?? All controls within easy fingertip reach — throttle, forward, reverse, brake, conveyor and gate ? Galvanised hopper resists rust and ensures reliable material flow throughout the machine's working life ? Five rib-thread turf tyres keep ground pressure low — safe for newly renovated or sensitive surfaces ? Self-propelled with forward and reverse — working speeds up to 2.5 mph, easy to turn in tight spaces ? Suitable for: groundsmen & greenkeepers · smallholders & farmers · estate managers · landscape contractors · sports turf professionals
